

Rolls-Royce Commercial Marine

Customer support

Former companies/products for which we perform service and support

The comprehensive Rolls-Royce marine business is the result of many acquisitions. This has resulted in a number of products being renamed and others manufactured under licence. Some of the products are recognised by their product name – others by the company's name. All these products are listed below and are covered by our local service resources worldwide.

Fact Sheet

Range of products:	Former company/brand:	Type of products:	Licensed manufacturers:	Type of products:
