

# MAN Monitoring and Diagnostic System (MMDS)

**D 28 in-line and V marine engines with EDC**  
**D 28 V marine engines with mechanical governor**

*Description, checking, interfaces*

## Dear Customer

This manual is intended to help you:

- Familiarize yourself with the components of the MAN Monitoring Diagnostic System (MMDS for short)
- Recognize the interaction of the individual MMDS components
- Install the system correctly in the ship
- Rectify faults and malfunctions

This manual must be read together with Publication 51.99598–8043 “Electronically Controlled Diesel Injection in Conjunction with MAN Monitoring Diagnostic System (MMDS)”.

This Publication was devised under the assumption that its readers will have the necessary basic knowledge of handling and working with marine engines and their electrical systems.
