## 1. SYSTEM INFORMATION

1.1	Explanation of symbols	page	1-1
1.2	Safety advises	page	1-1
1.3	System set-up	page	1-2

## 2. INSTALLATION

2.1	Control head	page	2-1
2.1.1	Outline dimensions	page	2-2
2.2	Control panel	page	2-3
2.2.1	Outline dimensions	page	2-4
2.3	Actuator	page	2-5
2.3.1	Outline dimensions	page	2-6

## 3. ELECTRICAL CONNECTION

3.1	Grounding	page	3-1
3.2	Assignment of actuator connectors	page	3-1
3.3	Power supply	page	3-2
3.4	Power supply cable and engine start interlock	page	3-2
3.4.1	Connection to power supply	page	3-2
3.4.2	Connection to engine start interlock	page	3-3
3.5	Connection to control panel cable	page	3-4
3.6	Connection to intercommunication cable	page	3-5
3.7	Gear control cable	page	3-6
3.7.1	Standard design	page	3-7
3.7.2	Special design	page	3-9
3.8	Throttle control cable	page	3-10
3.8.1	Standard	page	3-10
3.8.2	Special	page	3-12
3.9	Trolling control cable	page	3-13
3.10	Internal fuses	page	3-16

## 4. ADJUSTMENTS AND FUNCTIONS

4.1	Interface board	page	4-1
4.1.1	Function switch IV (overview)	page	4-1
4.2	Main board	page	4-2
4.2.1	Function switch I...III (overview)	page	4-3
4.3	Basic adjustments	page	4-4
4.3.1	Function switch I (main board)	page	4-4
4.3.2	Function switch II (main board)	page	4-6
4.3.3	Function switch IV (interface board)	page	4-9

---

## CONTENTS

---

4.4	Adjustment of throttle control	page	4-11
4.4.1	Standard throttle cable	page	4-11
4.4.1.1	Idle speed	page	4-12
4.4.1.2	Full speed	page	4-14
4.4.1.3	Second idle speed	page	4-16
4.4.2	Special throttle cable	page	4-18
4.4.2.1	Idle speed	page	4-19
4.4.2.2	Full speed	page	4-19
4.4.2.3	Second idle speed	page	4-19
4.5	Alignment of control heads and enable remote stations	page	4-21
4.6	Final adjustments	page	4-23

### 5. SPECIAL FEATURES

5.1	Special features	page	5-1
5.1.1	Enable speed synchronization	page	5-1
5.1.2	Features of speed synchroization	page	5-3
5.2.1	Trolling	page	5-4
5.2.2	Enable trolling	page	5-5
5.2.3	Trolling adjustments	page	5-7
5.2.3.1	Maximum speed	page	5-8
5.2.3.2	Minimum slip position	page	5-10
5.2.3.3	Maximum slip position	page	5-12

### 6. OPERATING INSTRUCTIONS

6.1	Control head	page	6-1
6.1.1	„Neutral“ position	page	6-1
6.1.2	„Ahead / Astern“ Position	page	6-1
6.1.3	„Full Speed“ Position	page	6-2
6.2	Operation field – Control head	page	6-2
6.2.1	Push button „Station Transfer“	page	6-2
6.2.1.1	Feature "Warming Up"	page	6-2
6.2.1.2	Feature "Mute acoustic alarm"	page	6-3
6.2.2	Indicator light „Alarm“ L7 and L8	page	6-4
6.2.3	Push button „Syn./Trol.“ T2	page	6-4
6.2.3.1	Speed synchronization	page	6-5
6.2.3.2	Trolling	page	6-6
6.2.4	Buzzer	page	6-7
6.2.5	Indicator light „Command“ L2 and L3	page	6-7

---

## CONTENTS

---

6.3	Operation field – Control panel	page	6-8
6.3.1	Push button “Station Transfer”	page	6-8
6.3.1.1	Feature “Warming Up”	page	6-8
6.3.1.2	Feature “Mute acoustic alarm”	page	6-9
6.3.2	Push button “Alarm / Lamp test”	page	6-10
6.3.3	Push button “Dimmer”	page	6-10
6.3.4	Push button “Special features”	page	6-11
6.3.4.1	Speed synchronization	page	6-11
6.3.4.2	Trolling	page	6-12
6.3.5	Indicator lamp “Remote Control ON”	page	6-13
6.3.6	Buzzer	page	6-13
6.3.7	Lighting of control head	page	6-14
6.4.1	Turning ON control with control heads used	page	6-15
6.4.2	Station Transfer	page	6-16
6.4.2.1	Interlocked Station Transfer	page	6-16
6.4.2.2	Free Station Transfer	page	6-17
6.5.1	Turning ON control with control panels used	page	6-18
6.5.2	Station Transfer	page	6-19
6.5.2.1	Interlocked Station Transfer	page	6-19
6.5.2.2	Free Station Transfer	page	6-20

7. FAULT CODE
---------------

7.1	Fault code	page	7-1
-----	------------	------	-----

8. BLOCK DIAGRAMS
-------------------

8.1	Single engine propulsion	page	8-1
8.2	Twin engine propulsion	page	8-2
8.3	Connection with standard control cables	page	8-3
8.4	Connection with special control cables	page	8-4
