MAN Emergency Unit
for D 28 Marine Engines – EDC

Dear Customer

This manual is intended to help you:

- Familiarize yourself with the components of the MAN emergency running unit
- Recognize the interaction of the individual emergency running unit components
- Install the system correctly in the ship
- Rectify faults and malfunctions

This manual is a supplement to Publication 51.99598–8043 “Electronically Controlled Diesel Injection in Conjunction with MAN Monitoring Diagnostic System (MMDS)”.

This Publication was devised under the assumption that its readers will have the necessary basic knowledge of handling and working with marine engines.

Best regards
